

Technical Data Sheet

Drum pumps F 426

More than just pumps

Drum pumps F 426

Advantages/characteristics:

- ▶ For mixing and/or conveying inhomogeneous fluids
- ▶ Two control levers to easily open/close the mixing openings
- ▶ Mixing openings allow backflow of the media for mixing back in the container
- ▶ With mechanical seal for inner tube seal
- ▶ 3 operating modes in one pump: Conveying, conveying with simultaneous mixing, also temporary mixed operation
- ▶ Switching operating modes is possible while operating
- ▶ Easy to dismantle for cleaning
- ▶ Distinct feature: The inner tube is reinforced with a metal core on the PP-version
- ▶ Temporary operation against closed valve (e.g. hand nozzle) is possible (until the indicated max. operating temperature has been reached)
